# Nikema Prophet

An entry-level, language agnostic, software developer with over 20 years of experience as a technology enthusiast. My most recent focus is on frontend JavaScript development. I'm looking for my first technical position preferably in a community or people role. I am seeking remote positions, but I'm willing to relocate for the right opportunity. My preferred locations are SF/Bay Area, Sacramento, CA, New York, NY, and Atlanta, GA. Pronouns are: she/her/hers.
